MORE SPEED FOR FREE

I-Land launched its “More Speed for Free” program in late 2011. This program increased the connection speed of our Otelco DSL and Wireless customers. In some cases, speed was doubled or even tripled. We followed that up with lower per month pricing for Otelco DSL and Wireless broadband services.

There isn't an Internet provider around who appreciates its customers more. We truly value your business! In 2011, when everything around was costing you more, I-Land cost you less.

I-land also expanded and upgraded its wireless network throughout 2011. With the addition of four new towers, located in Sedalia, Knob Noster, Boonville and Tipton, we are able to offer high speed wireless broadband to more areas. I-Land has also increased capacity on five existing towers and increased back-haul services between tower sites.

'Phishing' Emails

"We suspect an unauthorized transaction on your account. To ensure that your account is not compromised, please click the link below and confirm your identity."

Have you received an email with a similar message? This is a scam called "phishing" and it involves Internet fraudsters who send spam messages to lure personal information from unsuspecting victims.

If you get an email or pop-up message that asks for personal or financial information, do not reply or click on the link in the message. Legitimate companies don't ask for this information via email. If you are concerned about your account, contact the organization mentioned in the email using a telephone number you know to be genuine.
